

Zoning and Permit Status

I have spoken to our contact over at Biological Research Associates (now known as Carndo Entrix.) The report is as follows:

Sarasota County Rezoning: - Still valid

U.S. Army Corps of Engineers – This will need to be renewed. As long as the project design is similar, it will not be an issue.

U.S. Fish and Wildlife Services – This permit is valid and was renewed by us.

Southwest Florida Water Management District. This permit is valid through Sept. 27, 2013.
